

Peregrine Battery Pan External Oil Heaters

Peregrine External Battery Pan oil heaters have been designed to maintain the battery temperature at a level to allow the battery to operate efficiently. They are generally used in ambient temperatures below -10°C and have an internal thermal cut-out set at 40°C for safety. They can be fitted in multiples as necessary depending on the size of the battery tray and number of batteries involved.

Battery pan heaters are ideally controlled by a separate air thermostat fitted to a nearby panel. Available in a large range of voltages, including low voltage DC and a range of wattages.

Model	PBPL1	PBPL2	PBPL3	PBPL4
Wattage	75	125	175	250
Voltage	230V AC			
Dimensions	238mm (w) x 346mm (l) x 40mm (d)			
Cable Length	2000mm			
Flexible Cable Armour Length	1676mm			
Armour Adaptor Thread	20mm x 1.5			
Integral Thermostat	No			
Strapping Length	2 x 1220mm			
Integral Thermal Cut-Out	Yes			

Shipping/Warranty Information	
Shipped Dimensions (mm)	490 (L) x 490 (W) x 210 (D)
Shipped Weight (kg)	3kg
Warranty	Standard 12 months from delivery
