

## Peregrine Top-Entry Diesel Tank Heaters. Model: P995 Weatherproof (3000W)

All PEREGRINE diesel fuel tank heaters are withdrawable, thermostatically controlled and available in a variety of thread and flange sizes. All are made to order to the specific tank depth required and the elements sleeved for safety.

The wattage, size and length of the heater is dependent on the minimum ambient temperature, dimensions of the tank, amount of lagging and whether the installation is static or mobile. All models are supplied with a thermostat set at 10°C unless otherwise requested.
