Peregrine Pad-Type External Oil Heaters

Peregrine external Pad-Type oil heaters are the ideal solution in the following applications:

- Heating air-cooled engines
- Heating lubricated oil in all engines at low ambient temperatures
- Heating gearboxes, pumps, oil valves etc
- Heating static engine sumps where sump removal for the fitting of an internal heater may not be possible
- Other applications where direct heating is impractical or where there is inadequate space to fit an internal heater
